

Why does solar make sense for tenants?

1 Big bill savings

Solar will reduce your energy bills every quarter, even if you're barely at home.

2 Smarter energy choices

Be aware of your household energy usage and make small changes to save even more

3 Carbon reduction

Using solar helps you make a big difference, without having to change your behaviour.

Our **Solar for Rentals** service ensures a smooth process with **maximum ongoing returns**

We guide the rent increase

We monitor the solar system

We provide solar savings reports for peace of mind & ease of advertising

HOW DOES IT WORK?

STEP 1

Tenant

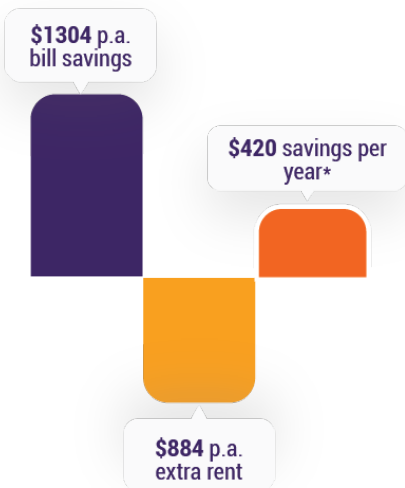

Tenant agrees to a small rental increase (e.g. \$17/week for a 5kW system in NSW).

STEP 2

Owner

Owner pays for solar to be installed on the roof.

Make savings from day one

* Based on a 5kW system

See energy usage in real time
